Alisher Zhussip

Hello, my name is Alisher. I am 20 years old and I am from Kazakhstan. I am very interested on rapidly developing technologies. JCU Singapore student.
Singapore, Singapore

Summary

During my professional journey, I gained diverse experience across various industries and roles. At AutoData, my first internship, I worked as a front-end developer, creating websites and gaining practical experience. Following this, at ArtMax, a printing company, I served as a graphic designer, handling tasks from processing orders to troubleshooting equipment. Later, during an internship at Zerone Technology, I honed my front-end development skills and learned to work with multiple APIs. At Atlas Academy, I transitioned into teaching, becoming a programming instructor for students aged 15 to 18. There, I led multiple groups through web development courses covering HTML/CSS/JS/JQuery/Figma, fostering their learning and growth in coding and design. This journey has equipped me with a comprehensive skill set, from technical proficiency to effective communication and mentoring abilities, preparing me for continued success in the dynamic field of technology.

Experience

Atlas Academy
Programming Supervisor
August 2022 - December 2023 (1 year 5 months)
Алматы, Казахстан

At Atlas Academy, I worked as a programming instructor, teaching students aged 15 to 18. I taught them front-end development, specifically HTML/CSS/JS/JQuery/Figma. My course comprised over 8 groups, each with 5 students, whom I instructed in web development. In addition to teaching coding languages and design tools, I also mentored students on best practices, problem-solving techniques, and encouraged collaboration among peers.
It was a rewarding experience witnessing their growth and enthusiasm for learning throughout the course.

Zerone Technology

Frontend Web Developer
June 2022 - September 2022 (4 months)
Алматы, Казахстан

I completed a professional internship at Zerone Technology. There, I improved my front-end development skills and gained experience working with numerous APIs. Additionally, I had the opportunity to work on several high-profile projects, collaborate with a talented development team, and learn about the latest industry trends and technologies. This experience not only enhanced my technical abilities but also helped me develop better problem-solving and project management skills. I also participated in code reviews, contributed to team meetings, and received valuable feedback from senior developers, which was instrumental in my professional growth.

ArtMax
Graphic Designer
June 2021 - October 2021 (5 months)
Алматы, Казахстан

I worked at a printing company called ArtMax as a graphic designer. My main responsibilities included processing orders, creating designs of varying complexity, printing orders, cutting paper, making bindings, and other related tasks. Additionally, I was responsible for maintaining and troubleshooting printing equipment, ensuring quality control of all printed materials, and managing digital files. I also coordinated with suppliers to order materials, handled customer inquiries and revisions, and trained new team members on design software and printing procedures. During my time at ArtMax, I had the chance to work on a diverse range of projects, which allowed me to refine my design skills and learn new techniques. I also collaborated closely with clients to ensure their vision was accurately translated into the final product. This role helped me develop a keen eye for detail and a strong understanding of the printing process from start to finish.

TOO "AutoData"
Frontend Web Developer
June 2020 - August 2020 (3 months)
Алматы, Казахстан

During my first internship at a company called "AutoData," I worked as a front-end developer. I developed several websites that were published online. My primary motivation for applying there was to gain practical experience and enhance my skills. Throughout my time at AutoData, I had the opportunity to work on real-world projects, collaborate with a talented team, and learn about the latest web development technologies. This experience not only improved

my technical abilities but also gave me valuable insights into the industry, preparing me for future professional challenges.
